

Bring your teachers to Gozo.

We create the learning experience.

Professional development · Teacher wellbeing · Innovation
International experience · Mediterranean setting

GENISTA GOZO

Erasmus+ Staff Training & Educational Mobility

genistagozo.org · causonmark@hotmail.com · Gozo, Malta

WHY GOZO

A natural learning space.

Gozo is more than a destination. It is a place where professional development can be combined with reflection, creativity, wellbeing and cultural exchange.

Our programmes encourage participants to step outside the traditional classroom and experience learning through practical workshops, experiential activities, outdoor learning, reflection, international networking, cultural discovery and local educational experiences.

We believe professional development is most powerful when people have the space to learn, connect and reflect.

01

Teacher Wellbeing & Resilience

Preventing Burnout. Building Resilience. Rediscovering Balance.

Teaching is demanding. Teachers are expected to support their students while managing increasing workloads, stress and emotional pressure. This programme gives education professionals practical tools to protect their wellbeing, manage stress and build sustainable resilience.

PARTICIPANTS EXPLORE

- Recognising early signs of burnout
- Stress management strategies
- Emotional regulation
- Healthy professional boundaries
- Mindfulness techniques
- Relaxation and breathing practices
- Resilience and self-care
- Creating a supportive school environment

LEARNING OUTCOMES

- Identify early signs of professional burnout
- Apply practical stress-management techniques
- Develop healthier professional boundaries
- Use mindfulness techniques in daily life
- Strengthen personal resilience
- Introduce short wellbeing practices at school

IDEAL FOR

Teachers · School leaders · Education staff · School psychologists

02

AI & Digital Tools for Modern Education

From Technology to Meaningful Learning.

Artificial intelligence and digital tools are changing education. This practical programme helps teachers move beyond theory and explore how technology and AI can support creativity, personalised learning, lesson planning and student engagement.

PARTICIPANTS EXPLORE

- AI tools for teachers
- Responsible use of AI in education
- Digital lesson planning
- Creative educational technologies
- Interactive learning
- Digital storytelling
- Media literacy
- Online safety
- Practical classroom applications

LEARNING OUTCOMES

- Identify practical applications of AI in education
- Use digital tools to enhance teaching
- Design more engaging learning experiences
- Explore personalised learning strategies
- Evaluate opportunities and risks related to AI
- Create practical digital resources for students

IDEAL FOR

Teachers · School leaders · Digital coordinators

03

Innovative & Outdoor Learning

Learning Beyond the Classroom.

Gozo becomes the classroom. This experiential programme explores how natural and cultural environments can be transformed into meaningful learning spaces. Participants learn through direct experience, observation, collaboration and practical challenges.

PARTICIPANTS EXPLORE

- Outdoor education
- Experiential learning
- Learning through nature
- Creative problem solving
- Team-based learning
- Observation and field research
- Environmental awareness
- Practical outdoor activities

LEARNING OUTCOMES

- Design outdoor learning activities
- Use local environments as educational resources
- Develop experiential learning projects
- Improve teamwork and collaboration
- Encourage creativity and problem solving
- Integrate environmental education into schools

IDEAL FOR

Teachers · Educators · Youth workers · Environmental educators

04

Inclusive & Multisensory Education

Creating Classrooms Where Every Learner Belongs.

Diversity is a strength. This practical programme equips teachers with strategies for creating inclusive learning environments and adapting teaching to different needs, abilities and learning styles.

PARTICIPANTS EXPLORE

- Inclusive education
- Universal Design for Learning
- Neurodiversity
- SEN support
- Autism and ADHD
- Dyslexia and dyscalculia
- Multisensory teaching
- Differentiated instruction
- Practical classroom strategies

LEARNING OUTCOMES

- Identify barriers to learning
- Adapt teaching materials
- Design more inclusive lessons
- Apply multisensory learning techniques
- Differentiate instruction
- Create supportive learning environments
- Improve cooperation with families and specialists

IDEAL FOR

Teachers · SEN professionals · School leaders · Support staff

05

CLIL & Language Learning

Learn. Communicate. Teach Through Language.

This programme combines language development with innovative approaches to multilingual education. Participants explore how foreign languages can become a tool for learning, communication and international collaboration.

PARTICIPANTS EXPLORE

- CLIL methodology
- The 4Cs framework
- Language scaffolding
- Visual learning
- Academic language
- Digital tools for CLIL
- Project-based language learning
- Communication strategies
- Intercultural learning

LEARNING OUTCOMES

- Plan CLIL lessons
- Combine language and subject learning
- Create language-supportive environments
- Use scaffolding techniques
- Design interactive language activities
- Develop cross-curricular projects

IDEAL FOR

Language teachers · CLIL teachers · Primary & secondary teachers

06

Green Education & Circular Learning

Turning Sustainability into Education.

Sustainability is not only a topic. It is a way of thinking. This programme introduces teachers to practical approaches to environmental education, circular economy and sustainable lifestyles.

PARTICIPANTS EXPLORE

- Circular economy
- Zero waste education
- Upcycling
- Environmental awareness
- Sustainability projects
- Outdoor learning
- School waste audits
- Student-led environmental initiatives

LEARNING OUTCOMES

- Explain the principles of circular economy
- Design sustainability projects
- Introduce zero-waste activities
- Engage students in environmental action
- Develop school-based green initiatives
- Connect education with local communities

IDEAL FOR

Teachers · Environmental educators · School leaders · Sustainability coordinators

OUR TRAINING FORMAT

Active. Practical. Memorable.

Workshops

Practical, interactive sessions led by experienced trainers.

Experiential learning

Learning through doing, observation and real-life experiences.

Reflection

Time to connect professional learning with personal practice.

International exchange

Sharing ideas and good practices with educators from different countries.

Cultural learning

Discovering Gozo and Malta as part of the educational experience.

Local connections

Opportunities to explore local schools and community projects, where available.

SAMPLE 5-DAY PROGRAMME

A week designed around real learning.

DAY 1 **Arrival & Welcome**

Participant introductions · programme orientation · networking · introduction to Gozo
· cultural experience.

DAY 2 **Professional Development**

Morning: core training session. Afternoon: practical workshop. Evening: reflection and
networking.

DAY 3 **Learning Through Experience**

Morning: thematic training. Afternoon: outdoor / experiential learning activity.
Evening: cultural programme.

DAY 4 **From Learning to Practice**

Morning: practical workshops. Afternoon: participants develop ideas and strategies
transferable to their schools. International exchange of good practices.

DAY 5 **Reflection & Transfer**

Evaluation · reflection · learning outcomes · action planning · certificates · closing
session.

PARTICIPANTS LEAVE GOZO WITH

New knowledge · Practical tools · New professional connections · Ideas for their schools

THE PARTNERSHIP

Your Erasmus+ mobility. Our Gozo experience.

YOUR ORGANISATION BRINGS

- Erasmus+ mobility funding
- Participants
- Learning objectives
- Your Erasmus Plan priorities

GENISTA PROVIDES

- Professional training
- Experienced trainers
- Structured learning programme
- Clear learning outcomes
- Practical workshops
- Certificates of participation
- Cultural & experiential activities
- International exchange

CUSTOM PROGRAMMES

Programmes can be adapted or combined around your priorities:

AI + Digital Wellbeing + Mindfulness Outdoor + Sustainability Inclusion + Multisensory
CLIL + Languages Innovation + Entrepreneurship

WHO WE WORK WITH

Schools that take learning seriously.

- Primary and secondary schools
- Kindergartens
- Vocational schools
- Educational organisations
- Teacher training organisations
- NGOs
- Education professionals & school leaders
- Erasmus+ coordinators

WHY GENISTA?

Six reasons schools return.

23+ years

Gozo-based

Practical approach

Human-centred
